14 November 2012**MoneySupermarket.com Group PLC - Interim Management Statement**

This Interim Management Statement from Moneysupermarket.com Group PLC ("MoneySupermarket.com" or the "Group"), the UK's leading price comparison site, relates to the period from 1 July 2012 to date; the financial and operational data below is in respect of the Group's third quarter (1 July 2012 to 30 September 2012) unless otherwise stated.

The Group's financial performance in the third quarter was in line with the Board's expectations. Including the results from MoneySavingExpert.com from the date of acquisition on 21 September 2012, Group revenues and EBITDA for the third quarter were, respectively, 11% and 12% ahead of the same period last year (*). Excluding the contribution from MoneySavingExpert.com internet revenues and EBITDA for the third quarter were each 11% ahead of the same period last year. Visitors to MoneySupermarket.com were 15% ahead of the same period last year with visitors increasing across each of the Group's four verticals.

The Group to date has not seen a meaningful impact from Google Advisor in either its Money or Insurance verticals. Google Advisor launched a suite of Money products during the second quarter of 2012 and its car insurance product in September.

The Group has yet to recognise any credit relating to VAT from the agreed change in methodology that it now uses to calculate the proportion of VAT that is deemed to be 'irrecoverable'. As previously noted, this will be recognised once the Group has received written notification that HMRC have approved the claims. The Group remains confident that HMRC will approve the claims.

Money

Revenues in the Money vertical were 2% ahead of the third quarter 2011 on visitor volumes that were 9% higher.

Credit card revenues grew in the third quarter having tailed off during the second quarter of the year. Revenues from other credit products were slightly softer against the same period last year.

Savings revenues slowed throughout the quarter against a tough comparator. This was in part driven by lower competition for retail deposits amongst providers (banks) a number of which sought low cost funds from The Bank of England's 'Funding for Lending' scheme rather than retail deposits.

Insurance

Insurance revenues were 14% ahead and visitor volumes 17% ahead, of the same period last year.

The Group saw growth across all of its major Insurance lines including motor, home, and travel insurance. Motor and home insurance in particular have continued to perform strongly.

Travel

Revenues in Travel were 2% ahead of the third quarter 2011 on visitor volumes that increased by 17%. Trading in package holidays and car hire has continued to improve whilst revenues from flights and hotels have stabilised.

Home Services

Home Services revenues were 35% ahead of the third quarter 2011 with visitor numbers up by 21%. Utility

switching volumes, which account for the greatest part of Home Services revenues, were stronger than the same period last year reflecting cost increases in the domestic energy market after a relatively stable pricing environment in the first half of the year.

Financial position

Cash conversion continues to be strong. At 31 October 2012 the Group had net debt of £2.5m, reflecting the payment since the half year of the interim dividend of £9.3m together with the acquisition of MoneySavingExpert.com (£35m), corporation tax payments on account of £6.6m and capital expenditure of £4.3m

Outlook

Trading in the first weeks of the fourth quarter has been good. Group revenues including MoneySavingExpert are approximately 20% ahead of the same period last year. Revenues excluding MoneySavingExpert are approximately 15% ahead of the same period last year.

Revenues in October were particularly strong, benefiting from record utility revenues as price increases were seen in the domestic energy market. In November to date, revenue growth has been broadly in line with the growth rate seen in the third quarter of the year.

The Board remains confident in the outlook and overall the Board's expectations for the year remain unchanged.

Peter Plumb, Chief Executive of Moneysupermarket.com, said:

"MoneySupermarket continues to motor ahead. Our revenues in the third quarter rose 11% and profits were up 12%, compared to the third quarter of 2011. 15% more people visited our site. We saw marked increases in home and motor insurance; and in Home Services where we are helping homeowners save money in the face of sharp increases in domestic energy bills.

"We're continuing to invest in our digital marketing skills and in technology to keep us at the forefront of price comparison in the years ahead. And it's great to have the MoneySavingExpert.com team on board and that we can support their initiatives to help more people save money.

"Trading continues to be good. Since late September, when MoneySavingExpert.com joined the group, our revenues are up 20% on the same period last year."

Notes

- ❖ Group revenues include revenues generated from third parties by MoneySavingExpert.com. Revenues generated by MoneySavingExpert.com from MoneySupermarket.com are included within the relevant MoneySupermarket.com vertical commentary above.
