MoneySupermarket.com Group PLC - Interim Management Statement

18 April 2012

In advance of its Annual General Meeting to be held at 11.00am today, MoneySupermarket.com Group PLC ("MoneySupermarket.com" or the "Group"), the UK's leading price comparison website, issues the following Interim Management Statement relating to the period from 1 January 2012 to date. The financial and operational data below is in respect of the Group's first quarter (1 January 2012 to 31 March 2012) unless otherwise stated.

The Group's financial performance in the first quarter was in line with the Board's expectations. Internet revenues and EBITDA for Q1 were respectively 14% and 12% ahead of the same period last year. Visitors to the Moneysupermarket.com website were 15% ahead with visitors increasing across the Money, Insurance and Home Services verticals while Travel visitors were 11% lower.*

Money

Revenues in the Money vertical were 22% ahead of Q1 2011 on visitor volumes that were 20% higher.

Revenues from credit products (credit cards, loans, mortgages and debt solutions) were 14% ahead of the same period last year. Slower growth in credit card revenues was more than offset by strong growth in loans.

Revenues from non-credit products, which include savings, current accounts and advertising revenues, improved by 42% driven in particular by growth in savings and current accounts.

Insurance

Revenues in the Insurance vertical were 13% ahead and visitor volumes were 9% ahead of the same period last year. Motor insurance saw strong growth and life insurance continued to perform strongly, building on the momentum of the second half of 2011.

Home Services

Revenues in the Home Services vertical were fractionally ahead with visitors 12% ahead of the same period last year. Utilities revenues, which account for the majority of revenue in the Home Services vertical, were flat.

Travel

Revenues in the Travel vertical were 11% lower on visitor volumes that were also 11% lower. Market conditions continue to be challenging across the flights and hotels channels, with consumers continuing to manage their discretionary spending tightly. Our package holidays channel, however, continues to perform well, in part reflecting the investment made in the new channel in 2011.

Financial position

The Group continued to be cash generative and as at the end of March 2012 had cash balances of £36.6m.

Current trading

The Group has made a good start to Q2, with relative revenue and profitability to date ahead of Q1 run rates.

Peter Plumb, Chief Executive Officer, said:

"MoneySupermarket.com has made a good start to 2012 .We have seen solid growth in our Money and Insurance businesses as consumers continue to use us to make their money go further. We have continued to invest in both our brand and technology which should mean the Group is well placed to make further progress through the course of the year'."

* Internet KPIs including vertical and Group visitor numbers and vertical revenue numbers exclude Financial Services Net Limited and Local Daily Deals. The directors believe that this enables the users of the financial information to gain a better understanding of the financial performance of the business.
